

A close-up, teal-tinted image of a survey form. The form contains several rows of checkboxes and the words "No" and "Yes". A black pen is shown in the upper right corner, with its tip touching one of the checkboxes. The image is used as a background for the title text.

# Managing Data Capture and Surveys with REDCap

This course will introduce you to REDCap, a rapidly evolving web tool developed by researchers for researchers. REDCap features a high level of security, and a high degree of customizability for your forms and advanced user access control. It also features free, unlimited survey distribution functionality and a sophisticated export module with support for all standard statistical programs.

- Get started with REDCap
- Create and set up projects
- Design forms and surveys using the online designer
- Define basic branching logic
- Enter data and distribute surveys
- Set up basic longitudinal projects

At Intersect, we work closely with our member universities to develop and deliver training that targets the day-to-day software and technology problems that researchers face. We deliver hands-on courses in a relaxed setting with knowledgeable, helpful trainers who are themselves researchers and who know how researchers work.

Questions always welcome.
